

« Love is a word of light
written by a hand of
light
upon a page of light »

Kahlil Gibran, Lebanese poet

THE STUDIO

Sensitive and emotional manufactures.

HIND RABII IS DEVOTED TO SHEDDING LIGHT ON HIS LETTERS OF EMOTION.

Since 1997, the designers Hind Rabii and Michel Orban both industrial engineers have a common passion and love for creation, design and innovation.

We expect lights to shed light, to shine, to create shadows. To do this, the poetry of materials, glass, wood, gold and silver leaf, colours used by HIND RABII, positively alter the realities for playing the emotions card without indifference.

Because here is the poetic message of filters, colours, blended reflections, transparency that appears to make every HIND RABII model appeal to the desire of love and of light.

And today we still have, a need for these words cast on a page of white vellum.

Like you, we imagine that the HIND RABII brand is and will be synonymous with all these terms that are only language.

This language which skillfully builds itself in front of the manufactures that are glass blowing, confection of lampshades, wood, aluminum and steel work. All these trades that HIND RABII manages to show only the essentials.

As the Lebanese poet Kahlil Gibran writes, the writing of a hand of light, on a page of light is the vision of light that we offer.

BESPOKE

As manufacturers, most of our designs could be customised for special projects. Any cable height, colors, finishes or even dimensions may be on measure.

Our design office will help architects and interior designers for any bespoke project. We developed also a complete range of hanging solutions to fit into projects with special specifications. Any project could be studied by us to suggest the best we can. We developed canopies for single hanging lamps but also for small or even big combinations.

For any special project: office@hindrabii.com
 From Belgium to the world.

LEXICON :

All dimensions on technical drawings are in mm

K : Kelvin (light temperature)

lm : lumens (luminous flow)

Phase-cut dim. : dimmable with a phase-cut dimmer (standard on all products)

GOOD TO KNOW ABOUT DIMMING :

PHASE-CUT DIMMING.

All our products are delivered and tested with analog phase-cut dimming capability.

DALI

For most situations phase-cut dimming is the right way but for new projects for your modern home or for hospitality projects you may need the digital standard DALI. We also provide on request led drivers for DALI system, contact us !

CASAMBI

Use your phone as a switch or dimmer.

We provide the good solution with the Casambi system. Ask for it !

THE COLLECTIONS

The poetry of materials

Create an object that has no limits, that cannot have a conclusion.

01

INFINITY

Design by Chiaramonte-Marin / 2021

Create an object that has no limits, that cannot have a conclusion because precisely, without end. Infinity, is definitely the contemporary and timeless tripod light, as an object of our life that has no need to be reinvented.

THE DESIGNERS

Infinity, as soon as it was launched, receives design awards from Italy and Germany. Here a presentation of the designers who made this particular and timeless floor lamp. A spirit and inspiration from the past for a long future.

CHIARAMONTE ALFREDO & MARCO MARIN DESIGN

The passion for objects meant as industrial products is the glue of the professional partnership between Alfredo Chiaramonte and Marco Marin, promoting partners of the homonymous Designstudio.

The different activities experienced through the years (interiors, graphics, industrial and lighting design) brought to a mixed knowledge, contaminated by ideas developed in many fields.

Alfredo Chiaramonte was born in Bologna and studied at the Faculty of Architecture of Venice. Marco Marin was born in Venice and graduated at the Academy of Fine Arts specializing in industrial design.

They worked together with well known furniture and lighting companies.

They taught at the European Center for preservation of the architectural heritage in Venice.

Through the years they received many recognitions and some of their works have been exposed in the permanent collections of International Museums, like Museo Correr in Venice, Beaubourg in Paris, Design Museum of Calenzano (Anna Querci Foundation) Moma in San Francisco and the Venice Biennale when they worked with Yoko Ono.

MERIDIANA

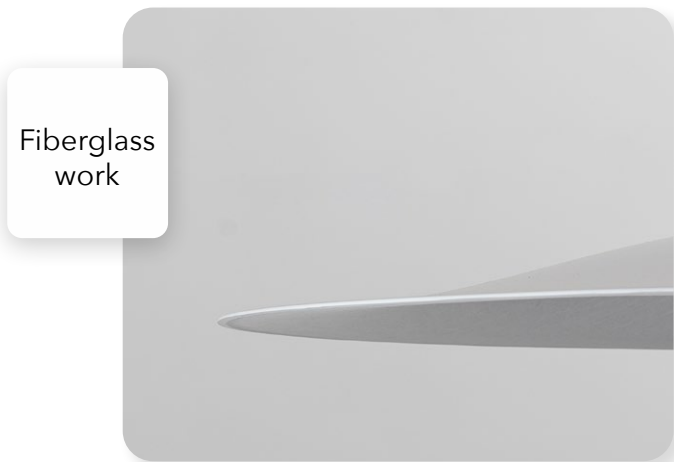

Design by Chiaramonte-Marin / 2018

Meridiana: this is not a sundial.
The process in fact is inverse: here the light
is not the means, but the purpose, a great
disk like the sun and hidden behind a big
clock hand or what it seems like, a gentle
and smooth not blinding light.

ICE ABSOLUT

Design by Hind Rabii / 2015

Anon-Belgian may not yet be able to imagine an ICE, a sweet (praline in «Belgian»). The ICE Absolut enjoys that kind of roundness that captures the senses, brimming with excitement. It is bursting with light, ready to explode in every direction or to be encased in its desires by golden or silver corsets. ICE is as asteroid of light coming from nowhere, coming from elsewhere.

ANNA BELLE

Design by Hind Rabii / 2017

ANNA-BELLE is endowed with an extremely rare elegance. The textiles enjoy a whiteness nuanced by the material used and the crown says a little too much of the purity of its intentions.

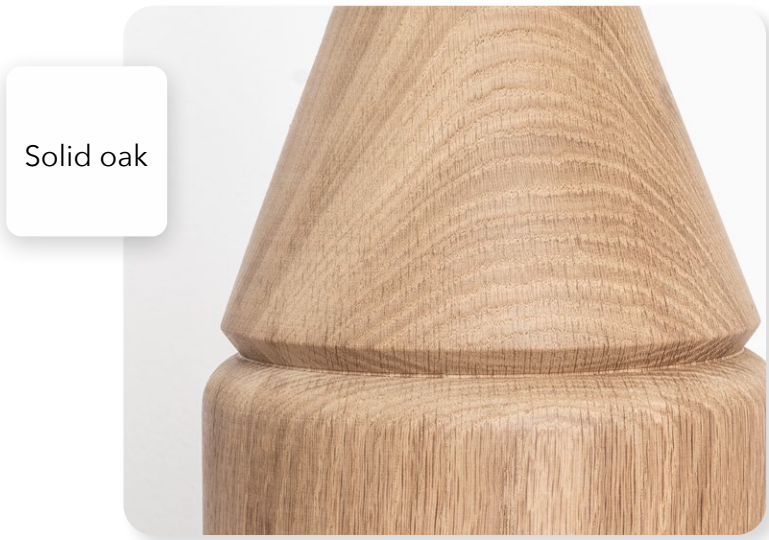

For BELLE, seducing you is banal.

The oak, an eternal and timeless material, turned towards MORANDI, is the only «support» that suits it. It'll give your home a presence that's both luminous and strong.
